Introduction

The type-c to HDMI adapter is a dual-mode adapter that supports maximum 4K@60Hz resolution in a single display. It can extend your image/video from your phone or notebook to an external display such as the projector, HDMI-based monitor. Whether you need to extend a monitor for work, stock market or conference, this adapter is of great help to assist you with your task.

Features

- The HDMI ports extend your display to the external HDMI monitor.
- The maximum resolution of Single display is up to 4K@60Hz and dual display up to 4K@30Hz.
- Mirror and Extend modes offer more operational possibilities, allowing you to extend two screens simultaneously on Windows system.
- Widely compatible with most Type-C powered devices.
- No external power adapter or driver needed.

System requirements

- Microsoft windows
- Mac OS
- Linux
- iPad OS
