### Driver Installation

You can visit www.wavlink.com to download the latest drivers.

**For Windows**

1. Double-click the downloaded exe. file and start to run setup.
2. Please wait for a while until Windows configures the DisplayLink Core Software. Your screen may temporarily go black or flash during this process.

3. When finished, the installation screen will disappear, and you will be returned to your desktop.

**Note**: On some computers, you may need to reboot before being able to use your USB-C dock.

5

---

### For Mac OS

1. Double-click the MAC Driver Installer image.
2. Select Software Installer to begin installing the Driver, and it will require a restart once completed.
3. Select User Guide to view the User Guide.
