WEEE Directive & Product Disposal

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.

03

System Requirement

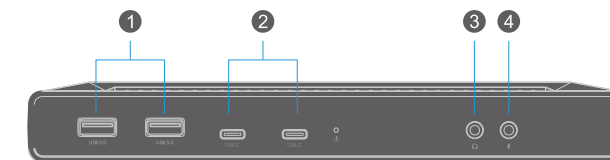

- Windows
- Mac OS X

Package Content

- 1 x USB-C Dual 4K Universal Docking Station
- 1 x USB-C to C Cable(E-Mark Chip) 1meter
- 1 x USB 3.0 A to C Cable 1meter
- 1 x Quick Start Guide
- 1 x DC20V/6.5A 130Watt Power Adapter

Product Overview

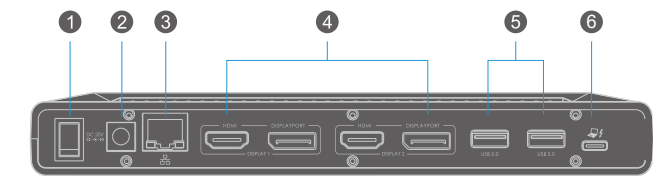

Front Panel

1. **Two USB 3.0 Type-A ports:**
For connection to USB Type-A peripherals.
2. **Two USB-C ports:**
For connection to USB-C peripherals.
3. **3.5mm Audio output port:**
For connection to Headphone.
4. **3.5mm Mic input port:**
For connection to Mic.

04

Rear Panel

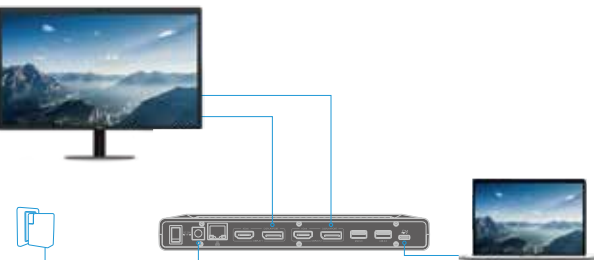

1. **ON/OFF Power Switch**
2. **Power jack:**
For connection to the power adapter. The Docking Station requires an external power supply for operation.
3. **10/100/1000Mbps Ethernet port:**
For connection to Ethernet network via a network cable.
4. **Two HDMI and Two DISPLAYPORT video output ports:**
For connection to HDMI monitors or DISPLAYPORT monitors.
5. **Two USB 3.0 Type-A ports:**
For connection to USB Type-A peripherals.
6. **USB-C port** (supports data transfer and power charging to host laptop):
For connection to a compatible laptop.

Note: There are two ports in each section (**Display 1 & 2**) that supports one monitor at a time, thus please choose the type of port you need.

05

5k Monitor Installation

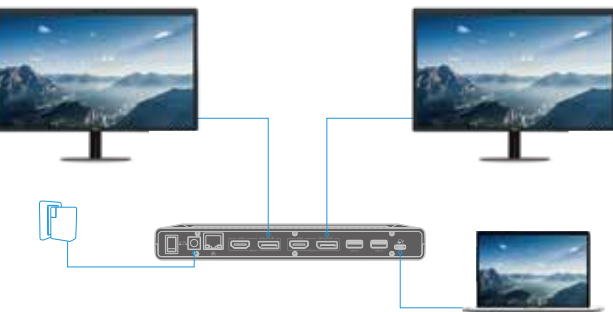

1. Install drivers through CD or visit <http://www.displaylink.com/downloads> to download the latest driver.
2. Connect your laptop to the dock with a proper cable.
3. Connect the DP port of dock to DP port of monitor via a DP cable.
4. Plug the dock in a power socket and switch it on.

Note: This dock is compatible with most 5k-enabled monitors on the market.

Dual 4k Monitor Installation

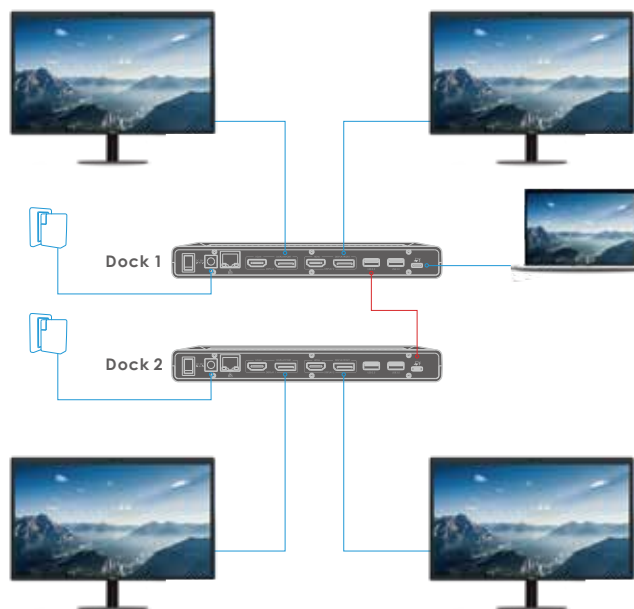

1. Connect your laptop to the dock.
2. Via standard HDMI cables or DP cables, connect two monitors to the dock.
3. Plug the dock in a power socket and switch it on.

06

Multiple Monitors Installation

1. Connect your laptop to the first dock.
2. The USB-C port (USB-C port with symbol) of the second dock is connected to either USB port (except ports with symbol) of the first one.
3. Via standard HDMI cables or DP cables, connect monitors to two docks.
4. Plug the dock in a power socket and switch it on.

Note: This docking station can work with any compatible dock or hub to establish a connection net as shown in the picture.

07

Notice: Laptops without USB-C ports

You can use USB 3.0 A to C cable if your laptop doesn't own any USB-C port. (This A to C cable is not used for Power Delivery but only for transferring data; if you need to charge your laptop, please connect it to the original power adapter.)
